SKILLS

Programming Languages

C, C++, Java, Python(NumPy, Pandas, TensorFlow)

Web Development

HTML, CSS, JavaScript, Node.js, FastAPI

Developer Tools

VS Code, Matlab, GitHub, Git

Technologies/Frameworks:

MongoDB, MySQL, AutoCAD, Power BI, AWS

COURSE WORK

- Data Structures and Algorithms
- Design and Analysis of Algorithms
- Database Management
- Object-Oriented Programming
- Software Engineering
- Machine Learning
- Computer Vision
- Data Science
- Deep Learning
- Advanced Computer Networks
- Operating Systems

PROFILE

Passionate Undergraduate Computer Science Engineering student, with deep motivation to stay current with evolving technologies. I'm seeking an internship opportunity where I can apply my skills to build impactful solutions and continue developing in a dynamic, innovative environment.

EDUCATION

- B.Tech Computer Science and Engineering
National Institute of Technology, Rourkela, India. 2022 - 2026 May
• CGPA - 6.47/10
- G.C.E Advance Level Examination (Physics Stream)
Royal College, Colombo 07, Sri Lanka. 2021
• physics C
• Chemistry B
• Com.Maths C
- G.C.E Ordinary Level Examination
Sri Dharmaloka college, Kelaniya, Sri Lanka. 2017
• 9A's

PROJECTS

AI-Driven Dynamic Load Balancing for Mobile Edge Computing

Dec 2025 - May 2026

Python | Reinforcement Learning | LSTM | Dueling DDQN | NS-3

- Developed a framework for MEC environments to reduce processing delay, prevent server overload, and improve workload distribution across heterogeneous edge servers.
- Designed a trend-aware LSTM workload prediction model to analyze historical server-load patterns and forecast future workloads, enabling proactive task scheduling.
- Implemented a Dueling Double Deep Q-Network (DDQN) agent that selected suitable edge servers for incoming tasks using current load, workload trends, predicted load, queue utilization, and task size.

Data Leakage Prevention in Cloud Environment

Aug 2025 - Nov 2025

Python | NLP | ML

- Performed end-to-end data analysis on large cloud-log datasets by cleaning, parsing, and structuring event records to identify patterns, extract meaningful insights, and prepare high-quality inputs for model development.
- Built and trained machine learning and NLP models, including a DistilBERT classifier for sensitive-data detection and an LSTM Autoencoder for behavioral anomaly detection, improving accuracy and strengthening the system's ability to identify high-risk events.

TECHNOLOGICAL INTERESTS

- Generative AI & LLMs
- MLOps
- Cloud Computing

LANGUAGES

- English (Fluent)
- Sinhala (Native)
- Hindi (Intermediate)

Raw ECG Signals for Patient Risk Stratification

Nov 2025

React | Node.js | ML

- Developed a machine learning application that analyzes raw digital ECG signals, extracts features, classifies arrhythmia patterns, and provides non-clinical patient guidance.
- Designed a user interface for uploading ECG data and automated prediction using an Artificial Neural Network model trained on MIT-BIH dataset.
- Integrated ECG preprocessing, heartbeat segmentation, feature engineering, and model inference into a real-time workflow.

COMPETITIONS

- **Economic Times AI Hackathon 2026 - Semi-Finalist**
Financial Close GenAI Agent
- **GTA MegaJam NIT Rourkela**
36-hour game development competition
- **HackNITR 4.0 NIT Rourkela**
12 hrs hackathon

CERTIFICATIONS

- **Google Foundation of Data Analytics**
December 2024
- **AWS Cloud Essentials**
October 2025

WORK EXPERIENCE

Unified Mentor Pvt. Ltd.

May 2025 - Aug 2025

Full Stack Web Developer Intern

Haryana, India

- Developed two responsive web applications using JavaScript, HTML and CSS, focusing on real-time bus tracking (Bus Management System) and EV slot booking (Electric Vehicle Recharge Bunk) with Firebase integration.
- Gained hands-on experience in full stack development including authentication, modular coding, database handling, and deployment using GitHub and cloud platforms.

EXTRACURRICULAR ACTIVITIES

Swimming Club

2023 – 2026

Vice Captain - NIT-Rourkela

- Won one gold medal and one silver medal at the NIT Rourkela Annual Open Swimming Competition in 2024 and 2025.
- Participated in the All India Inter NIT Swimming Competition in 2023, 2024, 2025, and 2026.
